Professional Experience

Software Engineering Intern (Backend), UPAY

08/2024 – 11/2024 | Dhaka, Bangladesh

Built scalable APIs using Django Rest Framework . Implemented token, session, JWT, and encryption-based authentication . Optimized RESTful APIs . Ensured data integrity with advanced validation techniques

COMPETITIVE PROGRAMMING & PROBLEM SOLVING

Codeforces

1000+ solve, Contest rating 1227(max)

Leetcode

400+ solve, Contest rating 1560 (max)

CERTIFICATIONS

- Problem Solving Certificate
- SQL (Basic) Certificate
- Python Certificate

POSITION OF RESPONSIBILITY

Assistant Secretary,

Programming club, Rajshahi University

03/2022 – 05/2024

Arrange a total 30+ Successful Programming Contest on vjudge and Trained 300+ Junior

EDUCATION

BSc in Engineering, Information and communication Engineering, University of Rajshahi

01/2019 – 06/2024 | Rajshahi, Bangladesh

TECHNICAL SKILLS

Language (C++, Python, Javascript)

CS Fundamentals (OOP, DSA, SQL, Computer Networks, Design Pattern)

Frameworks & Library (Django Rest Framework, FastAPI, Microservice (basic) , React.Js)

Tools (Postman, VS Code, Git)

DATABASE (Mysql)

PROJECTS

SocialMedia

- Auth: User registration/login, JWT auth, OTP-based account activation & password reset
- Blog: Create/edit/delete posts, save as Draft or Published
- Comments: Auth users can add/edit/delete comments
- Extras: Post pagination, filtering, and search
- Tech Stack: Django Rest Framework (Backend)

Courier Service System

- Auth: Role-based JWT auth (User/Admin)
- Booking: Parcel booking, tracking, and status updates
- Shipping: Admin dashboard for managing shipments
- Tech Stack: Django Rest Framework,MySQL

Task Management

- Features: Task creation, updates, deletion, and status filtering (pending/completed); supports task prioritization
- Tech Stack: FastAPI (Backend), MySQL (Database), Pydantic (Validation).

Undergraduate Courses

Courseworks

Programming with C, Data Structure and Algorithm, Java and Network Programming, Discrete Mathematics, Database Management Systems, Software Engineering, Information System Analysis Design, Computer Network, Fundamental of Cryptography, Information Theory and Coding, Web Engineering.
